

## Extension of the house and bathing regulations of the Aquella leisure pool under pandemic conditions

This supplement applies in addition to the house and bathing regulations of the Aquella leisure pool and is binding. It amends the house and bathing rules in the relevant regulations or introduces further points. The house and bathing rules and this supplement become part of the contract according to § 2 paragraph 1 of the house and bathing rules. The supplement takes up regulations (e.g. official, normative), which serve to protect against infection during the stay in this swimming pool.

### § 1 General principles and behaviour in the facilities

(1) Children under 12 years of age may only be admitted when accompanied by a parent or guardian or an adult responsible for their care. All attractions and facilities may only be used with parental supervision. Accompanying adults are required to avoid any accumulation and to keep the children at a sufficient distance wherever possible. Further regulations and age restrictions (e.g. sauna facilities, wellness areas, water slides) are possible.

(3) Persons are only permitted to enter the site after presenting the completed contact tracking form.

(4) In all closed rooms, on the paths to and from the parking lots, in the cash desk area as well as during the stay in the sanitary facilities, a mouth and nose cover must be worn.

(1) Everyone is urged to reduce physical contact with other people outside the members of their own household to an absolutely necessary minimum. Wherever possible, a minimum distance between two persons of 1.5 m shall be maintained.

(2) Only enter the pool perimeter immediately before using e.g. the pools, diving boards or waterslides.

(3) Distance regulations and markings in the area of e.g. water slides, diving platforms, etc. must be observed. Slides and diving platforms may only be used by one person or by a child with a legal guardian, provided that they are not blocked.

(4) Leave the pool immediately after swimming.

(5) Leave the swimming pool immediately after use and avoid crowds of people on the entire site (cash desk area, sanitary facilities, water basins), at public transport stops and in the car park.

(6) Instructions of the staff or other representatives must be followed.

(7) If parts of the bath or sauna cannot be used, this will be pointed out in writing in the entrance area or at the cash desk.

### § 2 General hygiene measures

(1) Persons with a known / proven infection by the corona virus are not permitted to enter. This also applies to bathers with suspected signs of infection. Persons who: - show symptoms of coronavirus disease (e.g. breathing problems, fever, dry cough, loss of sense of taste or who have had direct contact in the last 14 days with persons suffering from coronavirus disease.

(2) Wash your hands frequently and thoroughly.

(3) Use the hand disinfection stations.

(4) Cough and sneeze into a handkerchief or alternatively into the crook of your arm (cough and sneeze label)

(5) Shower and wash thoroughly with soap before entering the pool. (Provided the showers are open)

(6) A mouth-and-nose cover must be worn on the entire site if the minimum distance of 1.5 metres cannot be maintained. In particular, masks must be worn in the queue, in the cash desk area, when entering and leaving the pool, in the sanitary facilities, in all interior rooms, narrow spaces and, in accordance with official regulations, in the marked areas.

### § 3 Measures to maintain distance

(1) In all rooms, observe the current distance rules (e.g. rule for 2 persons, distance 1.5 m). Before entering marked rooms or narrow spaces: make sure that the maximum number of persons present is not reached.

(2) Shower and WC areas may be entered by a maximum of two persons at the same time. When entering the sanitary facilities, a suitable mouth-and-nose cover must be worn.

(3) There are access restrictions in the swimming and bathing pools. Please observe the information and the instructions of the staff.

(4) In the swimming and bathing pools the required distance must be maintained independently. Avoid the formation of groups, especially at the pool edge on the pool resting step.

(5) When lane lines are tensioned, the swimmer shall swim in the middle of the lane. Each lane may only be used in one direction (e.g. one-way street, swimmer highway). In double lanes, swimmers must swim counterclockwise in a circle.

(6) Pay attention to the signs and instructions of the staff.

(7) Paddling pools may only be used in compliance with the current distance and group rules. Parents are responsible for the observance of the distance rules on the entire area of their children.

(8) Avoid close encounters on the pool perimeter and use the entire width (usually 2.50 m) for evasion.

(9) Avoid close encounters at narrow places (passage pools, traffic routes) and if necessary wait until the path is clear.

(10) Adhere to the rules of the road (e.g. one-way traffic), signs and distance markings in the pool.
